SKILLS

JavaScript React ReactQuery Redux
Tailwind CSS HTML CSS Node.js Express
MongoDB Next.js Git & GitHub Web sockets
DSA C &C++

PERSONAL PROJECTS

Social Bird

- A working social media app like twitter based on local Storage, React and JavaScript.
- Basic validation to the registration. Only logged in users can access the Dashboard.
- The dashboard loads feed from all the users. This feed is also stored in local Storage CRUD operations on posts. Like, comment and search using de-bounce are some features as well.

JSON Proxy Holder

- A Proxy server for all the requests received at the jsonplaceholder.typicode.com endpoint.
- Implemented using React, React-query, Nodejs, Express and Tailwind CSS.

Countdown Quiz

- An interactive, countdown based quiz that stores a high score leader-board in local storage.
- Implemented using useReducer, useRef and useEffect hooks.
